SHUBHAM PAL

Frontend Developer

+91-6394095636 | shubhampal5636@gmail.com | LinkedIn | GitHub | LeetCode | Kanpur, India

PROFESSIONAL SUMMARY

Frontend Developer with a B.Tech in Artificial Intelligence & Machine Learning and hands-on experience building responsive, interactive web interfaces using HTML, CSS, JavaScript, and React. Experienced in converting UI/UX designs into functional web pages, building client websites, and developing feature-rich React applications with real-time data, animations, and interactive dashboards. Comfortable with basic WordPress setup and customization for content-driven sites. Seeking an entry-level Frontend Developer role to build clean, user-focused web experiences.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, C/C++

Frameworks & Libraries: React.js, React Native, Responsive Web Design

CMS: WordPress (Basics — setup, themes, page building)

Core Concepts: UI/UX Implementation, Cross-Browser Compatibility, Component-Based Architecture, Debugging & Performance Optimization

Tools: Git, GitHub, VS Code

EXPERIENCE

Frontend Developer Intern — Avaomme Infotech Pvt. Ltd. *3 Months*

- Developed and maintained front-end for 4 client websites using HTML, CSS, and JavaScript.
- Converted UI/UX designs into responsive, functional web pages.
- Ensured cross-browser and cross-device compatibility.
- Fixed bugs and optimized page performance for better user experience.
- Collaborated with the team to meet client requirements and project deadlines.

PROJECTS

DropDate — Client Deliverable Tracker

Tech Stack: HTML, CSS, JavaScript (Vanilla)

- Built a Kanban-style task tracker for freelance client work, with To Do / In Progress / Delivered columns and overdue-date highlighting.
- Implemented full CRUD functionality (add, move, delete tasks) with data persistence using browser local storage.

CRYPTEX PRO v2 — Virtual Crypto Trading Platform

Tech Stack: React, JavaScript

- Built a virtual futures trading platform in React with long/short positions, adjustable leverage (1x–100x), and stop-loss/take-profit orders.
- Implemented multiple chart timeframes, a live leaderboard, price alerts, and INR-based pricing for a realistic trading experience.

FEAST / ZEST — Food Delivery Website

Tech Stack: HTML, React

- Built a food delivery website with parallax scroll effects, a shopping cart, and promo code functionality.
- Implemented order tracking flow and responsive layouts for a smooth end-to-end ordering experience.
